

Overview:

There is no email account associated with your child's Bethel's Google Apps for Education account. The Google Apps service is available through an agreement between Google and the State of Oregon. Google Suite runs on an Internet domain purchased and owned by the Bethel School District and is intended for educational use. Your student's teachers will be using Google Suite for lessons, assignments, and communication. Google Suite is also available at home, the library, or anywhere with Internet access. School staff will monitor student use of Google Suite when students are at school. Parents are responsible for monitoring their child's use of Google Suite when accessing programs from home. Students are responsible for their own behavior at all times. Student safety is our highest priority.

Acceptable Use

Privacy and Safety

Google Suite is primarily for educational use. Students may use Apps for personal use subject to the restrictions below and additional school rules and policies that may apply.

Privacy

School staff, administrators, and parents all have access to student documents and calendars for monitoring purposes. Students have no expectation of privacy on Google Suite.

Limited Personal Use

Students may use Google Suite tools for personal projects but may not use them for unlawful activities, commercial purposes (running a business or trying to make money), personal financial gain (running a web site to sell things), Inappropriate sexual or other offensive content, threatening another person, misrepresentation of Oregon Public Schools, staff or students. Google Suite is not public forum. They are extensions of classroom spaces where student free speech rights may be limited.

Safety

Students may not post personal contact information about themselves or other people. That includes last names, addresses and phone numbers. Students agree not to meet with someone they have met online without their parent's approval and participation. Students will tell their teacher or other school employees about any contact they receive that is inappropriate or makes them feel uncomfortable. Students are responsible for the use of their individual accounts and should take all reasonable precautions to prevent others from being able to use their account. Under no conditions should a user provide his or her password to another person.

Access Restriction

Due Process: Access to Google Suite is considered a privilege accorded at the discretion of the Bethel School District. The district maintains the right to immediately withdraw the access and use of Google Suite when there is reason to believe that violations of law or district policies have occurred. In such cases, the alleged violation will be referred to the principal for further investigation and account restoration, suspension, or termination. As a party of the Agreement with Google, the State of Oregon also reserves the right to immediately suspend any user account suspected of inappropriate use. Pending review, a user account may be terminated as part of such action. All student accounts are deleted at the end of each school year.

Consumer Safety

Advice for Students and Parents

Don't get scammed. Crooks are good at fooling people. They create fake emails and web pages that look real in a practice called phishing. Don't trust links or web pages sent by email. Instead, open a new browser window and type in the address yourself. Don't get spammed. Spam is unwanted advertising sent by email. Never reply to spam and never do business with a company that sends spam. Use the "report spam" button to get rid of spam.

Digital Citizenship

(Advice for All) Treat others well. It hurts to get a mean email just like it hurts when someone is mean in the school hallway. When using email or making a post on a forum or web page, be kind. Everyone will see what you write so think before you type. Be careful with what you say about others and yourself.

Respect the rights of copyright owners. Copyright infringement occurs when an individual reproduces a work without permission that is protected by a copyright. If a work contains language that specifies acceptable use of that work, the user should follow the expressed requirements. If the user is unsure whether or not they can use a work, they should request permission from the copyright owner.

Students have First Amendment rights to free speech. Your rights can be limited in school. If you post something via email or on a school web page that disturbs the learning environment in your school, your right of speech may be limited. School web sites, email, and groups are for educational use and are not considered public forums for debating ideas. This means that a school has the right to limit student speech that disturbs the learning process in these areas.

These are the laws and policies that help to protect our students online:

Child Internet Protection Act

CIPA: The school is required by CIPA to have technology measures and policies in place that protect students from harmful materials including those that are obscene and pornographic.

CIPA: <http://fcc.gov/cgb/consumerfacts/cipa.html>

Children's Online Privacy Protection Act

COPPA: COPPA applies to commercial companies and limits their ability to collect personal information from children under 13. By default, Google advertising is turned off for Google Suite users. No personal student information is collected for commercial purposes. This permission form allows the school to act as an agent for parents in the collection of information within the school context. The school's use of student information is solely for education purposes.

COPPA: <http://www.ftc.gov/privacy/coppafaqs.shtm>

Family Educational Rights and Privacy Act

FERPA: FERPA protects the privacy of student education records and gives parents rights to review student records. Under FERPA, schools may disclose directory information (name, phone, address, grade level, etc.) but parents may request that the school not disclose this information. The school will not publish confidential education records (grades, student ID #, etc.) for public viewing on the Internet. The school may publish student work and photos for public viewing but will not publish student last names or other personally identifiable information. Parents may

request that photos, names and general directory information about their children not be published. Parents have the right at any time to investigate the contents of their child's Google Suite files.
