

Science Fair at the ***INCREDIBLE*** STEAM night!

Bring your science fair project to school  
on Friday, April 21, 2017.

**You may do anything related to science using any of the  
following methods:**

**Experiment...Demonstration...Exhibit...Comparison...Observation**

Your project **MUST** consist of 3 parts:

1. **Physical Examples** Provide physical examples, demonstrations, or evidence of your work. This can be displayed in a shoebox, container, mounted on cardboard, etc.
2. **Written Report** Provide a one page (or more) written report describing your project, including your observations and conclusions
3. **Artistic Illustration** Provide artistic illustrations, diagrams, graphs, etc. detailing important points of your work.

**Mount your written report and artwork on a single board for display and easy transport.**

**PLEASE NO food dye in exposed liquids (such as volcanoes). They stain the tables**
