

Spring 2017 Emergency Preparedness Fundraiser

Two easy steps to raise funds for your school.

1st: Pre-order water containers online at eweb.org beginning March 22.

American
Red Cross

A Partnership to Cultivate a Culture of Preparedness

The ability for our community to recover quickly from emergencies and disasters begins with us.

Help your school's families prepare for water outages

In the event of a natural disaster or system failure your family may experience a prolonged water outage.

Preparing for water outages made easy

Our local partnership is providing 3-gallon containers to make it easy for households to get water storage containers at a discount price of only \$5 applied to your water bill (retail price \$17 to \$21). These BPA-free 3-gallon water storage containers are reusable. Useful water and electric outage tips are on the container.

Fundraising for Shasta Middle School made easier

Our local partnership donates \$1 of the \$5 collected from the sales of 3-gallon BPA-free water containers to the American Red Cross. We donated over \$4,000 to the Red Cross through this program in 2016.

For a limited time our partnership will donate \$1 to your school for each container sold to a family in your school. Simply distribute the fundraising coupons. Families must pre-order containers online at eweb.org then bring the coupon with them when they pick up their containers from EWEB.

This special offer is only valid for active EWEB residential customers who have not previously ordered emergency water supply containers. Only available while supplies last.

2nd: Print this coupon to redeem when you pick up your containers from EWEB
